

DLiP - Assignment 2: Decision trees and Neural nets

Bradley Spronk - s2504758

February 20, 2026

1 GitHub experience

I am already familiar with Github. I have experience with creating repositories, branching, merging, and using push/pull requests. [Link to a GitHub repository](#), or [my GitHub profile](#).

2 Notebooks

The notebooks are found in the same folder as this report and follow the naming convention of Duarte. Or can be opened by double clicking the paperclip icons below.

2.1 Hands-on 2: Boosted decision trees

2.2 Hands-on 3: Neural networks

2.3 Homework 2: Decision trees and Neural nets
